

D&B Direct for Informativa – Data Blocks support

| Data Block | Description | C360 v2.1 | S360 v1.5 | LE360 v1.0 | IDMC v1.0 |
|--------------------------------------|---|---------------|---------------|---------------|---------------|
| Company Entity Resolution | Entity Resolution is the process by which a Dun & Bradstreet D-U-N-S® Number is assigned to client data and enables client data to be compared with standardized records held in the Dun & Bradstreet Data Cloud. | Cleanse Match | Cleanse Match | Cleanse Match | Cleanse Match |
| Company Information | Provides basic data about a company, including name and address, industry/business activity type, size, and country/region identification numbers. | L3 | L3 | L3 | L4 |
| Company Financials | Financial statement information on both private and public companies around the world. The summary contains up to 36 individually named elements but this data is, for the most part, as per the statements provided by each country and include the local nuances specific to some countries. | L2 | L2 | L2 | L3 |
| Diversity | Reported indicators on the business ownership structure of the company, such as women, minority or other designations. | L2 | L3 | L2 | L3 |
| ESG Insights | resiliency of companies by measuring the potential risk of incurring reputational, regulatory or operational damages that could impact financial performance. | | L3 | L3 | L3 |
| Filings & Events | Information about legal events associated with a company, such as: registrations with local authorities, suits, liens, bankruptcies/financial embarrassment. Also includes financing statements, public notices, US government awards data and special events information. | | L2 | | L2 |
| Financial Strength Insights | Analytically derived scores and ratings to help Finance professionals with many of their everyday use cases involving assessment of other companies. | L1 | L2 | L2 | L1 |
| Inquiry Insights | Provides insights into D-U-N-S™ Number level activity showing velocity and trends valuable for activity evaluation, sizing, opportunity definition and potential fraud detection. US only, monthly summary. | L3 | L3 | | L2 |
| Ownership Insights | Information on the people and companies who own shares of a given business entity and/or who ultimately benefit from the result of that business' operations. | L1 | L1 | L2 - UBO | L1 |
| Payment Insights | Information related to a company's payment history and profile. This includes the Dun & Bradstreet Paydex® score - both current and historical - high credit amount information and industry norm data. | L4 | L2 | | L4 |
| Principals & Contacts | Information on the most senior person and the rest of the known current principals and contacts at the company. | L2 | L2 | L2 | L3 |
| Restricted Party Screening | The D&B Restricted Party Screening API is a standardized set of services that enables you to embed screening workflow into your process, manage and maintain false positive remediation and adjudication. It helps you to react to material change based on your own policies. You can screen your third parties against sanctions, watchlists, Politically Exposed Persons and Adverse Media | | | v | |
| Supply Chain Risk Insights | Score summarizes risks found in the supply chain discovery including business failure, foreign influence, confluence, and potential fraudulent businesses. | | L1 | | L1 |
| Third Party Risk Insights | Analytically derived scores and ratings to help Strategic Sourcing and Compliance professionals with many of their everyday use cases involving assessment of other companies. Only available for the Supplier and Compliance domains. | | L1 | | L1 |
| Hierarchies & Connections | Information on the Headquarter or Parent of a business as well as the highest family member within a family tree. It also includes information on the highest member of a tree within the same country as the site record. | L1 | L1 | | L1 |
| Full Family Tree | All of the business entities to which a given Dun & Bradstreet D-U-N-S Number is related based on greater than 50% legal ownership. This block level represents the Full Family Tree data associated with the inquired D-U-N-S. | v | | | |
| Alternative Linkage | Identifies operational ultimate records for records that are franchises, dealers, networks, co-operatives, etc. | v | | | |
| Beneficial Ownership (UBO) | Beneficial Ownership List provides a list structure of both entities and individuals, and their relationship to the specified D-U-N-S Number with a particular focus on identifying Ultimate Beneficial Owners (UBOs) and Corporate Beneficial Owners (CBOs). | | | v | |
